New Albany-Plain Local School District – Franklin County
Notes to the Five Year Forecast
General Fund Only
April 25, 2022

DISTRICT MISSION:

To ensure the development of high-achieving, ethical, self-directed, and intellectually curious citizens of the world.

STATEMENT OF PURPOSE:

To create a culture of accountability that achieves the best academic and developmental outcomes for each student.

2021-2022 CONTINUOUS IMPROVEMENT PLAN

Commitment to Excellence

The New Albany-Plain Local School District is committed to creating a culture of accountability that achieves the best academic and developmental outcomes for each student. The District aspires, by September 2023, to be ranked in the top 10 or higher of all public school districts for student achievement in the State of Ohio as reported by the Ohio Department of Education (ODE) Performance Index Ranking. As our long term commitment, we aspire to become and remain the best rated school district in the State of Ohio.

Focus

All employees will be accountable for implementing research-based practices including a rigorous and aligned curriculum, common assessments, focused instruction and data-driven decisions to achieve the best academic and developmental outcomes for every student within a fiscally sustainable budget.

Benchmarks and Indicators

Provided State and/or other standardized assessment are administered during the 2021-22 school year, Benchmarks 1 through 4 for the 2021-22 school year will include:

Benchmark 1: Increase achievement

- Increase the district performance index rank as compared to all Ohio school districts on the Local Report Card from #17 to #16 or the District performance index score percentage shall be 90% or greater.

Benchmark 2: Facilitate a year or more of growth for every year of instruction

- Earn a Progress Component Rating of Four Stars or better on the Local Report Card.

Benchmark 3: Meet or exceed State's achievement gap closing standards for identified subgroups

- Earn a Gap Closing Component Rating of Four Stars on the Local Report Card.

Benchmark 4: Graduate students who are college and career ready

- Earn a Graduation Component Rating of Four Stars on the Local Report Card.
- Students in the Class of 2022 taking the SAT will earn a mean score that is at least 20% higher than the state average as reported by the SAT Cohort Annual Report.
- Administer the PSAT to all eighth graders and the SAT to all juniors during the 2021-22 school year.

Benchmark 5: Enhance school culture and social-emotional well-being

- Administer age-appropriate student surveys to measure the percentage of students who feel safe at school, supported, have at least one staff member to approach with problems, and the effectiveness of specific programs offered in grade-levels.
- Implement age-appropriate student programs, including the R Factor and building inclusive campus culture initiatives (building and district committees, continuation of diversity, equity and inclusion work, staff professional development, partnerships with external experts, etc.), to enhance school and district climate, culture, and well-being.

Benchmark 6: Demonstrate sustainable fiscal management

- If possible due to general revenue fund expenditures required to fulfill COVID-19 health and safety protocols, reduce FY22 Five Year Forecast Line Item 4.500 (Total Expenditures) by at least \$692,000 resulting in a 1% or greater reduction in total expenditures, to positively increase the District's Five Year Forecast.

Benchmark 7: Ensure community engagement and stakeholder satisfaction

- Administer parent and staff surveys to measure the level of satisfaction with educational quality, school culture, communications, student services, climate and/or fiscal management.
- Implement at least three strategies during the 2021-22 school year to increase school district awareness and engagement of senior citizens, adults without children enrolled, and Plain Township residents.

If State assessments are NOT required during the 2021-22 school year, Benchmarks 1 through 3 for the 2021-22 school year will include:

Benchmark 1: Increase Achievement - MAP 2021 Spring Assessments

To be accountable for increased academic achievement for students during the 2021-22 school year:

- As a District, 80% of all students taking the Spring MAP Assessments in Reading and Math will achieve a RIT score at or above the proficiency cut score for an equivalent Ohio State Test.

Benchmark 2: Progress

To be accountable for the demonstration of academic progress for students during the 2021-22 school year, the District will:

- Administer MAP, other standardized assessments, and common formative and/or summative assessments in content areas to identify student strengths and opportunities for growth to inform teacher instruction and teacher/administrator data analysis of student progress via Performance Matters.
- Analyze mid-year and year-end student assessment data to publicly present to the Board of Education and community.

Benchmark 3: Gap Analysis

To be accountable for the demonstration of gap closure among student subgroups during the 2021-22 school year, the District will:

- Disaggregate MAP results by federal and state student subgroups to determine levels of student achievement and inform student enrichment and intervention supports necessary to best meet students’ academic needs.
- Analyze mid-year and year-end student subgroup data to publicly present to the Board of Education and community.

Board adopted – October 11, 2021

Introduction to the Five Year Forecast

School districts are required to file a five (5) year financial forecast by November 30, 2021, and May 31, 2022 for fiscal year 2022 (July 1, 2021 to June 30, 2022). The five-year forecast includes three years of actual and five years of projected general fund revenues and expenditures. Fiscal year 2022 (July 1, 2021-June 30, 2022) is the first year of the five-year forecast and is considered the baseline year. Our forecast is being updated to reflect the most current economic data available to us for the April 2022 filing.

May 2022 Updates:

Revenues FY22:

The overview of revenues shows that we are substantially on target with original estimates at this point in the year. Total General Fund revenues (line 1.07) are estimated to be \$1,095,203 or 1.56% higher than the November forecasted amount of \$70,026,409. This indicates the November forecast was 98.5% accurate.

State Aide began the year with a new funding formula and little to no detail with regard to how the funding level was calculated. The District began seeing some detail in January of 2022. Though the District is still waiting on some funding mechanism information to be released enough details have been released at this time to see the ODE funding level compared to the original LSC simulations. Our District is realizing \$-408,208 less than the original FY22 LSC simulations which is the information known and was used to project our State Aide in November. LSC calculation details are not known therefore we are unable to understand what is driving this variance.

All other areas of revenue are tracking as anticipated for FY21 based on our best information at this time.

Expenditures FY22:

Total General Fund expenditures (line 4.5) are estimated to be \$67,521,897 for FY22 which is below the original estimate of \$68,353,418 in the November forecast. The expenditure lines most significantly below projections (Based on your client tweak accordingly) are Personnel Services (line 3.01) and Employee’s Retirement and Benefits (line 3.02) due to projected new positions not filled and staff turnover savings.. This will have a positive effect on the long term forecast.

Unreserved Ending Cash Balance:

With revenues increasing over estimates and expenditures ending below estimates, our ending unreserved cash balance June 30, 2022 is anticipated to be roughly \$36.3 million. The ending unreserved cash balance on Line 15.010 of the forecast is anticipated to be a positive accumulative balance through 2026 if assumptions we have made for state aid in future state budgets remain close to our estimates.

Data and assumptions noted in this forecast are based on the best and most reliable data available to us as of the date of this forecast.

The major lines of reference for the forecast are noted below in the headings to make it easier to relate the assumptions made for the forecast item and refer back to the forecast. It should be of assistance to the reader to review the assumptions noted below in understanding the overall financial forecast for our district. If you would like further information please feel free to contact Rebecca Jenkins, CFO/Treasurer at 614-855-2040.

General Fund Revenue, Expenditure and Ending Cash Balance:

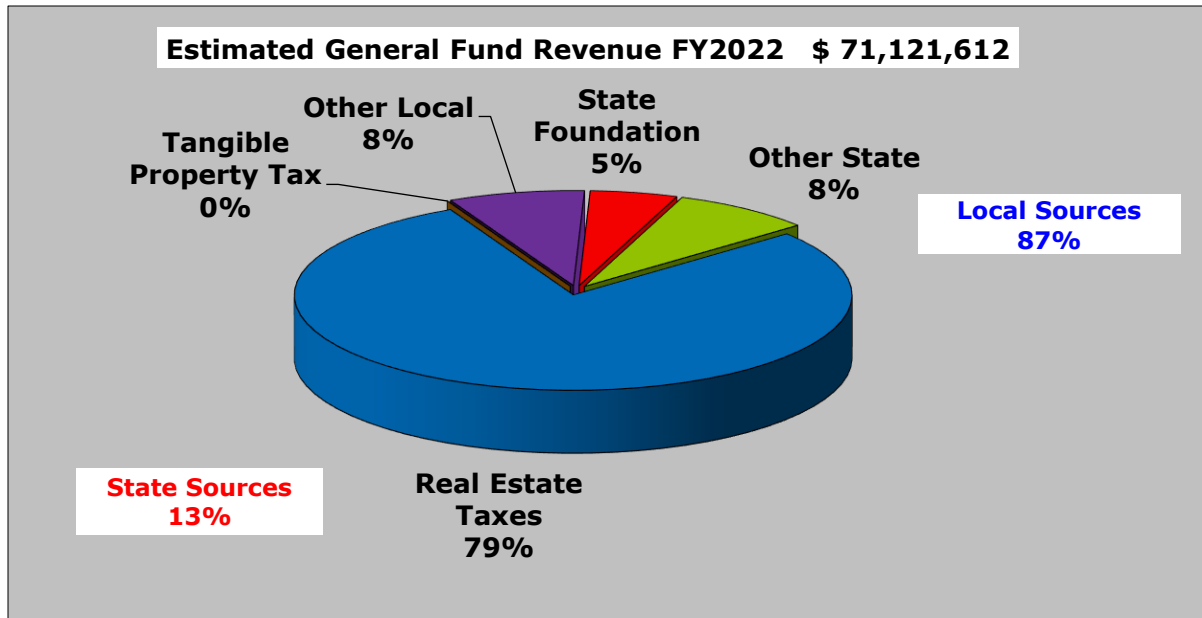

Enrollment Growth

Enrollment growth is a key driver of District expenditures. Below is a snapshot of both actual historical and future projected growth. The 2021 Future Think enrollment projection report is the source of the actual and projected numbers below. The District began using the “Low” projection due to the lower to flat enrollment recently experienced. We will monitor this growth and revise accordingly as we learn more about any future developments.

Grade	FY12	FY13	FY14	FY15	FY16	FY17	FY18	FY19	FY20	FY21	FY22	FY23	FY24	FY25	FY26

Revenue Assumptions
Estimated General Fund Revenue for FY22

Real Estate Value Assumptions – Line # 1.010

Property Values are established each year by the County Auditor based on new construction, demolitions, BOR/BTA activity and complete reappraisal or updated values. A reappraisal update occurred in 2020 for collection in 2021 which produced a 10.98% increase in residential and a 7.34% increase for commercial/industrial property.

New construction growth is projected at 1% of total tax values as a base amount then known material new construction is added to the base amount in all future years. This forecast also includes the abated real estate values rolling onto the tax duplicate as the associated abatements expire. As explained in the “All Other Financial Sources” section below there is an offsetting reduction in the associated income tax sharing agreements which was included in those agreements and expected by the District. In most instances the real estate tax gain is greater than the reduction in income tax sharing. An additional increase in new construction is added to the projection in the years where the abatement expires. Outside of the impact of a new levy, tax collections are anticipated to grow at a rate consistent with new construction and any other value adjustments considered new construction made by the Franklin County Auditor.

It is important to note that Real Estate Collections have been at 99% collection for several years. This is due to the increased collection of delinquent taxes. We have increased delinquent taxes for (unpaid) FY21 based on the current financial crises. It is anticipated that delinquent taxes will return to a more normal rate in future years. This will have to be monitored to determine whether to extend the increased delinquent tax rate into future years.

ESTIMATED ASSESSED VALUE (AV) BY COLLECTION YEARS

<u>Classification</u>	<u>Estimated TAX YEAR2021 COLLECT 2022</u>	<u>Estimated TAX YEAR2022 COLLECT 2023</u>	<u>Estimated TAX YEAR2023 COLLECT 2024</u>	<u>Estimated TAX YEAR2024 COLLECT 2025</u>	<u>Estimated TAX YEAR2025 COLLECT 2026</u>

ESTIMATED REAL ESTATE TAX (Line #1.010)

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>
Est. Prop. Taxes Including PUPP	\$56,073,786	\$55,574,889	\$56,575,339	\$57,115,481	\$57,447,963

In general, 53.5% of the new Res/Ag and Comm/Ind. is expected to be collected annually in February tax settlements and 46.5% is collected in August tax settlements. Public Utility tax settlements (PUPP taxes) are estimated to be received 50% in February and 50% in August settlement from the Franklin County Auditor.

State Foundation Revenue Estimates

Unrestricted State Foundation Revenue– Line #1.035

The actual release of the new Fair School Funding Plan formula was delayed until January with some details still not released. Though all information has not been released, enough details are available that we have projected FY22 and FY23 funding based on the information available from the Ohio Department of Education.

The amounts estimated for state funding are based on HB110, referred to as the Fair School Funding Plan (FSFP). The state foundation funding formula has gone through many changes in recent years. The most recent funding formula began in FY14 and was dropped in FY19 after six (6) years, followed by no foundation formula for two (2) years in FY20 and FY21, and now HB110 implements the newest and possibly the most complicated funding formula in recent years for FY22 and FY23. HB110, the current formula, introduces many changes to how state foundation is calculated and expenses deducted from state funding which will potentially make the actual five year forecast look different with estimates FY22 through FY26 compared to actual data FY19 through FY21 on Lines 1.035, 1.04, 1.06 and 3.03 of the forecast.

Overview of Key Factors that Influence State Basic Aid in the Fair School Funding Plan

- A. Student Population and Demographics
- B. Property Valuation
- C. Personal Income of District Residents
- D. Historical Funding- CAPS and Guarantees from prior funding formulas

Base Cost Approach- Unrestricted Basic Aid Foundation Funding

The new funding formula uses FY18 statewide average district costs and developed a base cost approach that includes minimum service levels and student teacher ratios to calculate a unique base cost for each district that includes base funding for five (5) areas:

1. Teacher Base Cost (4 subcomponents)
2. Student Support (7 subcomponents-including a restricted Student Wellness component)
3. District Leadership & Accountability (7 subcomponents)
4. Building Leadership & Operations (3 subcomponents)
5. Athletic Co-curricular (contingent on participation)

State Share Percentage – Unrestricted Basic Aid Foundation Funding

Once the base cost is calculated, which is estimated to be as high as \$7,202 per pupil when fully phased in, the FSFP calculates a state share percentage (SSP) calculation. The state share percentage in concept will be higher for districts with less capacity (lower local wealth) and be a lower state share percentage for districts with more capacity (higher local wealth). The higher the district's ability to raise taxes based on local wealth the lower the state share percentage. The state share percentage will be based on 60% property valuation of the district, 20% on federally adjusted gross income and 20% on federal median income, as follows:

1. 60% based on most recent three (3) year average assessed values or the most recent year, whichever is lower divided by base students enrolled.
2. 20% based on most recent three (3) year average federal adjusted gross income of district residents or the most recent year, whichever is lower divided by base students enrolled
3. 20% based on most recent year federal median income of district residents multiplied by number of returns in that year divided by base students enrolled
4. When the weighted values are calculated and Items 1. through 3. above added together, the total is then multiplied by a Local Share Multiplier Index from ranging from 0% for low wealth districts to a maximum of 2.5% for wealthy districts.

When the unrestricted base cost is determined and multiplied by the state share percentage, the resulting amount is multiplied by the current year enrolled students (including open enrolled students being educated in each district), and finally multiplied by the local share multiplier index for each district. The result is the local per pupil capacity amount of the base per pupil funding amount. The balance of this amount is the state share to pay.

Categorical State Aid

In addition to the base state foundation funding calculated above, the FSFP also has unrestricted categorical funding and new restricted funding beginning in FY22, some of which will have the state share percentage applied to these calculations as noted below:

Unrestricted Categorical State Aid

1. Targeted Assistance/Capacity Aid – Provides additional funding based on a wealth measure using 60% weighted on property value and 40% on income. Uses current year enrolled average daily membership (ADM). Also will provide supplemental targeted assistance to lower wealth districts whose enrolled ADM is less than 88% of their total FY19 ADM.
2. Special Education Additional Aid – Based on six (6) weighted funding categories of disability and moved to a weighted funding amount and not a specific amount. An amount of 10% will be reduced from all districts' calculation to be used toward the state appropriation for Catastrophic Cost reimbursement.
3. Transportation Aid – Funding based on all resident students who ride including preschool students and those living within 1 mile of school. Provides supplemental transportation for low density districts. Increases state minimum share to 29.17% in FY22 and 33.33% in FY23.

Restricted Categorical State Aid

1. Disadvantage Pupil Impact Aid (DPIA)- Formerly Economically Disadvantaged Funding, DPIA is based on number and concentration of economically disadvantaged students compared to state average and multiplied by \$422 per pupil. Phase in increases are limited to 0% for FY22 and 14% in FY23.
2. English Learners – Based on funded categories based on time student enrolled in schools and multiplied by a weighted amount per pupil.
3. Gifted Funds –Based on average daily membership multiplied by a weighted amount per pupil.
4. Career-Technical Education Funds – Based on career technical average daily membership and five (5) weighted funding categories students enrolled in.
5. Student Wellness & Success Funding – moved into DPIA funding, is restricted funding and will be spent on same initiatives and requirements that were previously designated under the stand alone fund.

State Funding Phase-In FY22 and FY23 and Guarantees

HB110 provides funding for FY22 and FY23. While the FSFP was presented as a six (6) year phase-in plan, the state legislature only approved the first two (2) years of the funding plan. The FSFP does not include caps on funding, rather it will include a general phase-in percentage for most components in the amount of 16.67% in FY22 and 33.33% in FY23. DPIA funding will be phased in 0% in FY22 and 14% in FY23. Transportation categorical funds will not be subject to a phase in.

HB110 includes “formula transition aid” which is a guarantee. There are actually three (3) guarantees in both temporary and permanent law to ensure that no district will get less funds in FY22 than they received in FY21. The guarantee level of funding for FY22 is a calculated funding guarantee level based on full state funding cuts from May 2020 restored, net of transfers and deductions, plus Student Wellness and Success funds (based on FY21 SWSF amounts), enrollment growth supplement funds paid in FY21 and special education preschool and special education transportation additional aid items.

Student Wellness and Success (Restricted Fund 467)

In FY20 and FY21, HB166 provided Student Wellness and Success Funds (SWSF) to be deposited in a Special Revenue Fund 467. HB110, the new state budget, has essentially eliminated these funds by merging them into state aid and wrapped into the expanded funding and mission of DPIA funds noted above and on Line 1.04 below. This is a loss of \$240,000 to the District. Any remaining funds in Special Revenue Fund 467 will be required to be used for the restricted purposes governing these funds until spent fully.

Future State Budgets Projections Beyond FY23

Our funding status for the FY24-26 will depend on two (2) new state budgets which are unknown. There is no guarantee that the current Fair School Funding Plan in HB110 will be funded or continued beyond FY23. For this reason funding is held constant FY23 through FY26.

Casino Revenue

On November 3, 2009 Ohio voters passed the Ohio casino ballot issue. This issue allowed for the opening of four (4) casinos one each in Cleveland, Toledo, Columbus and Cincinnati. Thirty-three percent (33%) of the gross casino revenue will be collected as a tax. School districts will receive 34% of the 33% GCR that will be paid into a student fund at the state level. These funds will be distributed to school districts on the 31st of January and August each year which began for the first time on January 31, 2013.

Casino revenue fell slightly in FY21 due to COVID-19 and Casinos closing for a little over two months. We have increased the amount in FY22 back to pre-pandemic FY20 levels as Casino revenues appear to have dipped largely due to their closure and not in response to the economic downturn. Prior to COVID-19 closure, casino revenues were growing modestly as the economy improved. Original projections for FY22-26 estimated a .4% decline in pupils to 1,778,441 and GCR increasing to \$106.35 million or \$59.80 per pupil. We believe FY22 Casino revenues will resume their historical growth rate.

A) Unrestricted State Foundation Revenue – Line #1.035

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>

B) Restricted State Revenues – Line # 1.040

HB110 has continued Disadvantaged Pupil Impact Aid (formerly Economic Disadvantaged funding) and Career Technical funding. In addition, there have been new restricted funds added as noted above under “Restricted Categorical Aid” for Gifted, English Learners (ESL) and Student Wellness. The district has elected to also post Catastrophic Aid for special education as restricted revenues. The amount of DPIA is limited to 0% phase in growth for FY22 and 14% in FY23. Catastrophic Aid has been reclassified to Other Revenue.

State Taxes Reimbursement/Property Tax Allocation Line 1.050

Rollback and Homestead Reimbursement

Rollback funds are reimbursements paid to the district from the State of Ohio for tax credits given owner occupied residences equaling 12.5% of the gross property taxes charged residential taxpayers on tax levies passed prior to September 29, 2013. HB59 eliminated the 10% and 2.5% rollback on new levies approved after September 29, 2013 which is the effective date of HB59. HB66 the FY06-07 budget bill previously eliminated 10% rollback on Class II (commercial and industrial) property.

Homestead Exemptions are also credits paid to the district from the state of Ohio for qualified elderly and disabled tax payers. In 2007 HB119 expanded the Homestead Exemption for all seniors 65 years of age or older or who are disabled regardless of income. Effective September 29, 2013 HB59 changed the requirement for Homestead Exemptions. Individual taxpayers who do not currently have their Homestead Exemption approved or those who do not get a new application approved for tax year 2013, and who become eligible thereafter will only receive a Homestead Exemption if they meet the income qualifications. Taxpayers who currently have their Homestead Exemption as of September 29, 2013 will not lose it going forward and will not have to meet the new income qualification. This will generally reduce homestead reimbursements to the district over time, and as with the rollback reimbursements above, the state is increasing the tax burden on our local taxpayers.

Summary of State Tax Reimbursement – Line #1.050

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>
Rollback and Homestead	<u>\$5,822,384</u>	<u>\$5,604,094</u>	<u>\$5,642,616</u>	<u>\$5,642,082</u>	<u>\$5,700,215</u>

Other Local Revenues – Line #1.060

Revenues from all other sources are based on historical growth patterns. This revenue largely consists of income tax sharing revenue and pay-to- participate fees as well as some rental income, tuition payments, and investment income. The income tax sharing portion is projected to decrease based on conversations with the City of New Albany. As abatements begin to expire real estate tax collections will increase as explained in the “Real Estate Value Assumption” section above. This also causes income tax sharing to decrease in accordance with the abatement agreements in place. Due to the COVID-19 economic crisis the district expects interest income to decline substantially beginning in FY21-FY24. Income tax sharing with the City of New Albany also began to decline beginning in FY20 and continue into FY21 with slight increases expected to return beginning in FY22. Pay to participate fees, program tuition and other fees will likely be reduced in FY22 as pay to participate fees have been reduced by the Board of Education. The district has also expanded its All-Day Kindergarten program which is a tuition based program. Catastrophic Cost Reimbursement has been reclassified to Other Local Revenues from Restricted State Aide.

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>
Tuition (All Day K; JV Adjstments)	\$870,370	\$892,129	\$914,432	\$937,293	\$960,725
Interest	\$103,159	\$128,949	\$131,528	\$134,159	\$136,842

Total Line # 1.060	<u>\$5,622,605</u>	<u>\$5,765,347</u>	<u>\$5,887,473</u>	<u>\$6,012,305</u>	<u>\$6,139,902</u>

Comparison of Local Revenue and State Revenue:

Short-Term Borrowing – Lines #2.010 & Line #2.020

There is no short term borrowing planned in this forecast at this time from any sources.

Transfers In / Return of Advances – Line #2.040 & Line #2.050

Returns of advances to other funds from the previous year comprise most of the historical revenue in this category.

All Other Financial Sources – Line #2.060

This funding source is typically a refund of prior year expenditures that is very unpredictable. We received several Bureau of Workers Compensation refunds over the past two years and do not expect to receive a refund in FY22. These revenues are inconsistent year to year and we will not project that occurring in the remainder of the forecast.

Expenditures Assumptions

Estimated General Fund Expenditures for FY22

Wages – Line #3.010

The model reflects the most recent negotiated agreement base increases of 2%, 2% and 1% for FY22, FY23 and FY24 respectively. 1% is included in FY25 and FY26 for planning purposes. The negotiated agreement reflects a standardized 2.5% step increase due to a complete change to the PLEA salary schedule where all steps are 2.5% over a 26 year period. This change ensures the district will not see a “boom and bust” salary cycle. The district included an average step increase of 1.73% for classified bargaining unit members in FY21-FY25. Future negotiations can effect these assumptions. FY22 includes targeted market adjustments for some OAPSE job classifications. The current negotiated agreements expire on June 30, 2024. New hires have been included in FY22-FY26 for growth and critical need areas as determined by the Superintendent.

The Board of Education also implemented a financial goal of reducing current year (FY22) expenditures (Line 4.50) by \$692,000. This has been accomplished in reduced spending in several lines of the forecast with the major reductions taking place in Personnel Services and Fringe Benefits. Wages are running under projections and have been adjusted accordingly.

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>

Total Wages Line #3.010	<u>\$43,031,811</u>	<u>\$45,452,280</u>	<u>\$47,693,598</u>	<u>\$49,996,501</u>	<u>\$52,330,291</u>

Fringe Benefits Estimates Line 3.02

This area of the forecast captures all costs associated with benefits and retirement costs, which all except medical insurance being directly related to the wages paid. The district pays 14% of each dollar paid in wages to either the State Teachers Retirement System (STRS) or the School Employees Retirement System (SERS) as required by Ohio law.

A) STRS/SERS

As required by law the BOE pays 14% of all employee wages to STRS or SERS.

B) Insurance

Due to an exceptionally high, non-COVID-19 related claim year, the District’s insurance increase for FY21 was set at 15.63%. Years FY22 is expected to be 2% or lower based on a much better claim year. FY23-26 include a 7% premium increase based on current trends and for planning purposes.

The Further Consolidated Appropriations Act of 2020, included a full repeal of three taxes originally imposed by the Affordable Care Act (ACA): the 40% Excise Tax on employer-sponsored coverage (a.k.a. “Cadillac Tax”), the Health Insurance Industry Fee (a.k.a. the Health Insurer Tax), and the Medical Device Tax.

C) Workers Compensation & Unemployment Compensation

Workers Compensation is expected to be about .04% of wages FY21– FY25. Unemployment is expected to remain at a very low level FY22-FY26. The district is a direct reimbursement employer, which means unemployment costs are only incurred and due if we have employees who are eligible and draw unemployment.

D) Medicare

Medicare will continue to increase at the rate of increases in wages. Contributions are 1.45% for all new employees to the district on or after April 1, 1986. These amounts are growing at the general growth rate of wages.

Summary of Fringe Benefits – Line #3.020

<u>Source</u>	FY22	FY23	FY24	FY25	FY26
STRS/SERS	\$6,585,740	\$6,965,709	\$7,317,118	\$7,672,663	\$8,033,448

Purchased Services – Line #3.030

HB110, the new state budget, will impact Purchased Services beginning in FY22 as the Ohio Department of Education will begin to direct pay these costs to the educating districts for open enrollment, community and STEM schools, and for scholarships granted students to be educated elsewhere, as opposed to deducting these amounts from our state foundation funding and shown below as expenses. We have continued to show these amounts below as zeros and reduced amounts to help reflect the difference between projected FY22-FY26 Line 3.03 costs and historical FY19 through FY21 costs on the five year forecast. College Credit Plus, excess costs and other tuition costs will continue to draw funds away from the district, which will continue in this area and have been adjusted based on historical trend.

<u>Source</u>	FY22	FY23	FY24	FY25	FY26
Base Services	\$1,722,206	\$1,773,872	\$1,827,088	\$1,881,901	\$1,938,358

Supplies and Materials – Line #3.040

An overall increase of 2% is being estimated for this category of expenses which include all consumable supplies that are purchased to operate the school district, such as textbooks, paper, cleaning supplies, tires and bus fuel. FY22 is based on submitted budgets.

<u>Source</u>	FY22	FY23	FY24	FY25	FY26
Supplies	\$1,858,360	\$1,895,527	\$1,933,438	\$1,972,107	\$2,011,549
Budget Modifications	\$0	\$0	\$0	\$0	\$0
Total Supplies Line #3.040	<u>\$1,858,360</u>	<u>\$1,895,527</u>	<u>\$1,933,438</u>	<u>\$1,972,107</u>	<u>\$2,011,549</u>

Equipment – Line #3.050

Capital outlay is estimated based on historical trends. The district passed a permanent improvement levy in FY18 which collects approximately \$1.1 million each year. The Board of Education committed to continuing to spend the \$1.3 million it was spending prior to the levy so the levy ask could be as low as possible. The District prepared a long-range capital improvement plan which identifies \$2.4 million in capital maintenance/repairs each year. Focused capital expenses are included in this forecast. These funds are only spent when necessary.

<u>Source</u>	FY22	FY23	FY24	FY25	FY26

Total Equipment Line #3.050	<u>\$1,066,929</u>	<u>\$1,071,037</u>	<u>\$1,075,268</u>	<u>\$1,079,626</u>	<u>\$1,084,115</u>

HB264 Note Repayment/Interest and Fiscal Charges – Lines 4.050 and 4.060

The District completed an energy conservation project in 2005 under HB264 legislation. HB264 allows districts to use the energy savings from replacing inefficient HVAC and mechanical systems with energy efficient systems to repay unvoted debt needed to finance the replacements. The District financed these improvements over a 15-year period and will make its final HB264 debt payment in FY20. The final payment was made in FY21.

Other Expenses – Line #4.300

The category of Other Expenses consists primarily of Auditor & Treasurer fees. Auditor and Treasurer Fees will increase anytime a new operating levy is collected. All other expenditures in this line assume a 3% inflation rate.

<u>Source</u>	<u>FY22</u>	<u>FY23</u>	<u>FY24</u>	<u>FY25</u>	<u>FY26</u>
County Tax Fees & Election Costs	\$713,568	\$720,704	\$727,911	\$735,190	\$742,542
County Board of Education	\$32,464	\$32,789	\$33,117	\$33,448	\$33,782

Ending Unencumbered Cash Balance “The Bottom-line” – Line #15.010

This amount must not go below \$-0- or the district General Fund will violate all Ohio Budgetary Laws. Any multi-year negotiated contract which is knowingly signed which results in a negative unencumbered cash balance is a violation of ORC5705.412, punishable by personal liability of \$10,000, unless an alternative “412” certificate can be issued pursuant to HB153 effective September 30, 2011. The district drops below a 30-day ending cash balance in FY26 though the balance is still projected to be positive.

Ending Cash Balance	<u>\$36,328,424</u>	<u>\$32,786,880</u>	<u>\$26,947,255</u>	<u>\$18,219,668</u>	<u>\$6,368,302</u>

General Fund Ending Cash Balance

RISK ASSESSMENT

- Revenue does not grow with inflation or enrollment growth due to HB920 and the state funding formula, respectively. This means current programming may not be sustainable without new revenue. Revenue is largely voter approved in an 87% locally funded school district such as New Albany.
- The actual release of the new Fair School Funding Plan formula was delayed until January with some details still not released. Though all information has not been released, enough details are available that we have projected FY22 and FY23 funding based on the information available from the Ohio Department of Education.

The amounts estimated for state funding are based on HB110, referred to as the Fair School Funding Plan (FSFP). The state foundation funding formula has gone through many changes in recent years. The most recent funding formula began in FY14 and was dropped in FY19 after six (6) years, followed by no foundation formula for two (2) years in FY20 and FY21, and now HB110 implements the newest and possibly the most complicated funding formula in recent years for FY22 and FY23. HB110, the current formula, introduces many changes to how state foundation is calculated and expenses deducted from state funding which will potentially make the actual five year forecast look different with estimates FY22 through FY26 compared to actual data FY19 through FY21 on Lines 1.035, 1.04, 1.06 and 3.03 of the forecast.

- Due to the high reliance on local property tax revenue property valuations continue to be a major area of risk given the current economic climate. Franklin County went through a reappraisal in calendar year 2020 and collected in calendar year 2021. The district realized a 10.98% increase in residential and a 7% increase in commercial property values. The next update will occur in calendar year 2023 to collect in 2024. We will continue to monitor this discussion and adjust the forecast accordingly.
- The district has seen an increase in collected delinquent property taxes. This revenue source must also be closely monitored for future fluctuations. The district expects to return to a more normal 95% collection rate from the current FY21 collection rate of 100% at a future date.
- Utility costs are also a risk factor depending on weather conditions and cost increases from year to year. This expenditure area actually benefited from remote learning as utilities were not used to the same level when buildings are empty. AEP has requested permission to increase their rates through the PUCO. If such is approved the district could see as much as a \$75,000 increase in electricity expenditures.
- HB110 direct pays costs associated with open enrollment, community and STEM schools, and for all scholarships including EdChoice Scholarships. These costs will no longer be deducted from our state aid. However, there are still education option programs such as College Credit Plus which continue to be deducted from state aid which will increase costs to the district. Expansion or creation of programs that are not directly paid by the state of Ohio can expose the district to new expenditures that are not currently in the forecast. We are monitoring closely any new threats to our state aid and increased costs as any new proposed laws are introduced in the legislature.
- Revenue from the income tax sharing agreement with the City of New Albany is also a potential major risk. The district saw a decrease in this income due to the great recession. The district continues a regular dialogue with the City of New Albany leadership for guidance on projecting this revenue source. This revenue source is equal to approximately \$3.2 million to New Albany-Plain Local Schools in FY22. This revenue will decrease as abatements expire as planned and with any economic fluctuation. The unabated property value will then transition into real estate values and the related tax collections will be added to the real estate revenue line. The abatement expiration schedule as reported to the district by the City of New Albany has been included in the real estate and other income lines.
- State reimbursements continue to be a risk especially at the beginning of any biennial budget process. Reimbursements such as Homestead and Rollback could be legislated away just as the TPP reimbursement has been. This revenue source is equal to approximately \$5.8 million on existing levies to New Albany-Plain Local Schools.
- The district prepared a campus-wide capital improvement plan. The plan estimates \$2.4 million each year for potential permanent improvement needs. The community approved a 5-year 1.25 mill permanent improvement levy in November 2017. The permanent improvement levy generates approximately \$1.1 million and the general fund will continue to spend \$1.3 million annually. The capital improvement plan has been updated and presented to the Board so they can consider renewal or replacement of the PI levy in November 2022.
- Enrollment growth is a risk to the five-year forecast. As noted on page six (6) of these assumptions, we expect to gain an additional 258 students from FY22 to FY26. Due to a slightly higher increase in enrollment growth from FY19 to FY22 the district has begun using the “Moderate” enrollment growth estimate for planning purposes.

A change in residential development is always a risk. The district is closely monitoring a multi-family development around the Little Turtle Golf Course. If the expected number of condos are constructed the District’s enrollment projections will be greatly impacted causing added costs in personnel and retirement/benefits for staffing in both the classroom and transportation as well as increased capital outlay costs for the purchase of additional buses to transport the students as they are outside the 2-mile radius. At this time the district expects not more than 50 new students from this development.

- The District recently learned of a \$20 billion investment by Intel to locate within the New Albany City limits. Though in the City limits it will not be within the NAPLS boundaries. However, the District does expect some enrollment impact from this new development. As always, we will continue to work with our City and Community partners to understand what new housing developments are expected. A sharp increase or decrease could have a substantial effect on the ending cash balance and must be monitored closely.
- HB59 eliminated the Rollback exemption on any future new or replacement levy after 2013. This means that taxpayers will no longer receive the 12.5% reduction on any new levies. This could make passing any new levy more difficult. This will not affect the total collection for the school district but will shift the tax burden from the State of Ohio onto local taxpayers.
- The district has included increases in purchased services as a result of College Credit Plus that mandates that district's pay 100% of the tuition for current students attending up to 15 credit hours of higher education per semester as well as all course fees and textbooks. This legislation also prohibits districts from charging any type of fee associated with public colleges. We will continue to monitor this expense.
- Negotiated agreements expire June 30, 2024.
