Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are six levels on the index and districts receive points for every student in each of these levels. The higher the achievement level the more the points awarded in the district's index. This rewards schools and districts for improving performance.

Indicators Met

Indicators Met measures how many students have passed the state tests at a minimum level, called proficient, or higher. Test results are reported for each student in a grade and subject. At least 75 percent of students must pass to get credit for the indicator. Starting in the 2013-14 school year, a district or school needs to have 80 percent of their students pass at a minimum level or higher in order to "meet" an indicator.
